**[stefan.lieck@bardehle.de](mailto:stefan.lieck@bardehle.de)**

Stefan Lieck specializes in patent and utility model litigation on behalf of national and international clients as well as in the enforcement and defense of claims related to unfair competition and design law. His practice also focuses on preliminary injunction and inspection proceedings. Furthermore, he advises in IP-relevant contractual matters, such as license agreements, and prepares freedom-to-operate opinions. In cooperation with the firm's patent attorneys, Stefan Lieck assists in (parallel) opposition and nullity proceedings.

Stefan Lieck particularly advises in the fields of mechanical engineering, automotive engineering, telecommunications, medical devices, optics and computer technology including software.
